Fazenda first joined the Tevalis customer community back in 2017, since then they have been benefitting from an inter-connected EPOS system that has allowed them to grow to a multi-site level. Like us, Fazenda believes in giving back, that's why Fazenda has chosen to integrate their EPOS technology with GiftTrees, meaning after every mouth-watering authentic gaúcho meat, their GiftTree forest will grow, giving those communities in need a life-giving tree.

“When we realised that Tevalis was partnering with GiftTrees, it was great as it means we have similar mindsets. Our administration isn't effected, and it's also very easy for our teams in the business.”
