tevalis & opsyte

Management tools made for hospitality.

Run your business the right way.

Opsyte has a fully supported online rota system, allowing your staff and management full access and control over their shifts. Automate your rota by using templating and shift swapping, removing the manual entry from rota creation. Plan rotas, manage working patterns and monitor time & attendance with a free app for your staff.

Tevalis and Opsyte are teaming up to simplify your end of night cashing up process, and minimise wasted time. The Tevalis EPOS system is seamlessly integrated to Opsyte, meaning operators can organise and analyse up-to-date daily trade data with Opsyte's simple and effective Cash Up solution, as well as seamlessly stream information to Xero's accounting platform.

Finance, cashing up and reporting
Tevalis integrated daily controls and reports at your fingertips.
