Etevalis & planday

Work smart, not hard.

A better way to manage and collaborate with your people.

Save time and streamline your staff management process.

Tevalis integrate with the market leaders in staff management solutions to simplify and expedite these essential processes Planning rotas by hand, needing last minute changes or revisions, and manually checking employee attendances all decrease efficiency and overall accuracy for management.

Planday helps you build an employee schedule faster by taking into account staff holiday, availability, payroll costs and more.

Automatically import revenue from Tevalis into Planday, so you can monitor your revenue compared to salary costs.

When employees clock in and out through Planday, their data is automatically communicated with your payroll platform.

Export all your staff details from Planday into Tevalis, including name, hourly wage and employee ID.

Optimise your schedule by adjusting staffing levels based on actual and forecasted revenue.

"The integration between Tevalis and **Planday is awesome** because it pulls across revenue. The amount of data we have being collected means we can make better decisions as a business."

- Enoteca De Luca

Connect your Workforce Management to your Tevalis EPOS.

Gone are the days of manually inputting labour costs and matching the figures, thanks to our powerful integration, operators can expect a seamless and direct connection between Planday and Tevalis, allowing the team to analyse and track accurate, up-to-date information to help make better decisions for the business.

Save Time

Sales data is communicated in real time, meaning you don't have to wait until the end of the week, or month to track your labour cost.

Boost Staff Morale

With accurate staff performance data readily available to analyse, you can then provide your staff with rewards and incentives based of that information.

Eliminate Errors

Automated processes minimise the number of touchpoints for your payroll data, and mistakes made in the manual handling of your employees' information.

Etevalis & Planday & LINA STORES

Focusing its objectives on sustaining growth, Lina Stores needed a sophisticated EPOS solution that could coordinate seamlessly between all systems and across all sites, with accurate and comprehensive monitoring of all stock being crucial for everyday operations. Business performance data and analytics were also key for proactively making decisions that would ensure excellent customer service and product offerings.Lina Stores now has a complete EPOS system with hardware, software, and integrations that all work together efficiently and communicate across all the sites. The implementation of their Tevalis hospitality technology also ensures that their systems will scale and evolve as Lina Stores continues to expand.

⁵⁵ The integration between Tevalis and Planday means that we don't have to wait until the end of the week, or the month, to look at our labour tracking against our sales. It means we can do it live on a daily basis.⁹⁹
