

Order and pay, the simple way.

Take control and connect with customers
through digital order and pay.

Built to serve every hospitality operator.

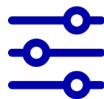

QikServe and Tevalis have teamed up to provide the hospitality industry with a digital order and pay experience like no other, no matter the preferred route to purchase and pay.

Ideal for any food or drink business with seated dining, with QikServe you can streamline your customers' ordering process, maximise guest spend, drive kitchen efficiency, and reduce touch points for staff.

Brand Enhancing

Boost your brand image and build the knowledge you need to grow.

Complete Control

Update menus, toggle services, and control collection slots with ease.

True Flexibility

Adapt your service model and deliver the customer journeys you want.

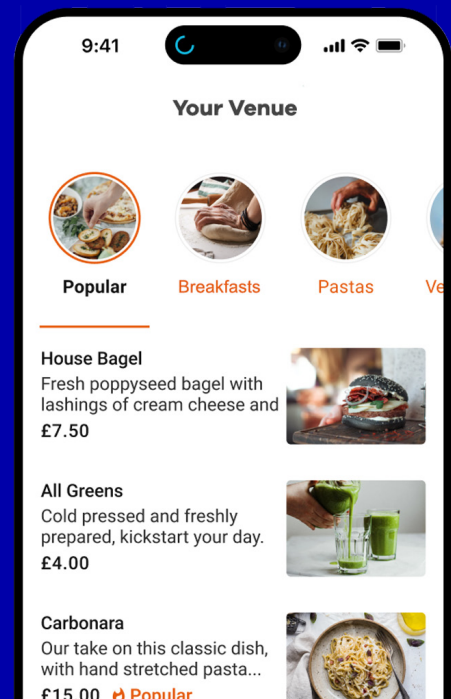

Revenue Generating

Encourage greater customer spend and repeat visits to your venues.

Open Check

Give your customers the option to pay as soon as their order is placed, or keep the tab open, allowing for repeat orders and payment at the end of their meal.

Connect QikServe to your Tevalis EPOS.

Integrating Tevalis and QikServe means you can benefit from a seamless ordering flow. Once your customers place their order and pay on their devices, those orders automatically populate on the Tevalis EPOS and Kitchen Management System. This means your kitchen staff can start preparing the order straight away, keeping your guests happy and reducing manual input.

Flexible Ordering

Qikserve's platform can be used through the web or through an existing app, giving you ultimate reliability and flexibility.

Drive Revenue

Increase your customers' average transaction value with quick and easy touchless ordering and intelligent upselling opportunities.

Expert Reporting

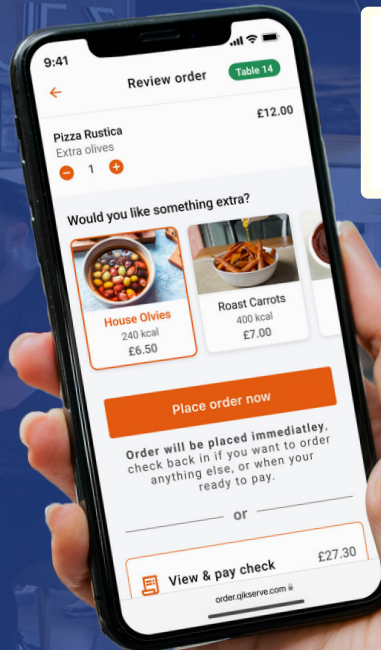

Analyse key performance data through the Tevalis Enterprise suite, helping you make better decisions for your business.

tevalis & QikServe & BONNIE & WILD

Bonnie & Wild Market is Edinburgh's first food hall. Located in the new St. James Quarter, they have gathered together a mouth-watering selection of leading restaurants, bars, and food and drink providers to showcase the very best of Scotland's larder! Together, we have delivered our technology ecosystem across their eight restaurants, four retail outlets, and three bars to give their guests the best possible experience, as well as enhance operational efficiency and reduce costs.

“On our QikServe dashboard, we can see returning customers, which is a great tool and a massive set of data for us to use. And also for our guests, once they've popped their details in, you can just place another order, it's really easy for them.”
