

Intelligent Purchasing & Accounts Payable.

Save time & money by automating your Purchasing & Accounts Payable Processes.

Tevalis and Lightyear are working together to deliver a seamless Purchasing and Accounts Payable Process. Lightyear is an award-winning AP automation app, designed to eliminate manual data entry and reduce invoice processing times. With an end-to-end approvals workflow, purchase orders can be raised & bills can be approved in seconds, saving your business more than 80% in costs and time.

Our integration means data is fully synchronised and communicated between our two platforms, giving you instant, easy access to essential business data.

Increase Efficiency

With automated bookkeeping, including supplier statement reconciliation, your team can do more, faster.

Cut Costs

With automatic price checking and duplicate flagging, never pay more than you should ever again!

Connect Teams.

Lightyear's cloud platform acts as a single source of truth. With sophisticated communications tools, collaboration has never been easier.

Receive Early Payment Discounts

By eliminating manual data entry and automating the approvals process, you can process your supplier bills faster and take advantage of early payment discounts.

Access Accurate, Real-time Data

With Lightyear's accurate line-item data extraction technology, get real-time overview of payables data & make better-informed decisions.

Receive Unbeatable Technical Support

Lightyear's local team is onhand 24 hours a day via live chat, email and phone.

Clays brings all the fun of clay target shooting out of the country into the heart of the City. Fun is guaranteed as you get competitive with thrilling interactive clay target action on Clays' mammoth 4K screens.

“Lightyear has been great, and a real timesaver for us. The purchase order integration with Tevalis in particular, and the subsequent automatic reconciliation between purchase order and invoice, has saved our venue teams hours every week.”

- Clays
