

Better service starts here.

Serve up a magical customer experience and grow your brand with me&u.

Simply scan, order & pay.

Meet me&u, the refreshingly efficient, and remarkably likeable QR ordering tool that helps you reduce service admin, increase spend per head and capture more data. me&u is completely web-based (no app to download) and is directly integrated with your Tevalis POS.

How does it work?

Browse - Guests scan a QR code and view your menu filled with beautiful food photography and intuitive categories.

Order - Guests add items to cart straight from the table. All they need is a smartphone and an appetite.

Pay - Features like intuitive tipping and multiple payment methods make bill time easy. Orders are then sent directly to your Tevalis POS and printed as normal.

Tap to reorder - Two taps to reorder drinks with orders delivered to table or collected from the bar.

PAR.59

“It’s so handy to really streamline the back of house so that we can ensure that customers get drinks when they want them. I would 100% recommend Tevalis and me&u, we feel that they deliver on all levels that we need”

- Par.59

Increase Sales

Boost revenue with cross-sells and upsells.

Real-Time Insights

Synced directly with the Tevalis Enterprise Suite.

Create Loyal Locals

Use your data to re-engage with guests after they leave your venue.

Order Batching

Say goodbye to endless dockets. Multiple orders from the same table are automatically combined into a batch while allowing customers to order and pay individually.

Collect More Data

Using Order & Pay you can increase customer data collected by up to 30%, great for marketing, increasing return visits and customer loyalty.

24/7 Customer Support

Hospitality isn't 9 - 5 and neither are we. Our support team is available around the clock, with an average response

Connect me&u directly to your Tevalis EPOS.

The Tevalis EPOS and me&u are seamlessly integrated. You'll love the simple set up, seamless menu updates, efficient order management and boosted sales. Keeping guests and your team happy.

Streamlined Ordering

Orders placed through me&u immediately populate on the Tevalis EPOS as well as our Kitchen Management Screens, increasing productivity and staff efficiency.

Flex: Two-Way Ordering

Flex is a two-way ordering solution that keeps orders open on your POS to create a multiplayer ordering and payment experience. Servers can add or edit items from a guest's order, or guests can order and pay directly through the me&u QR code.

Maximise Customer Satisfaction

Together, the me&u and Tevalis solution means guests have the best possible experience, and keep coming back.

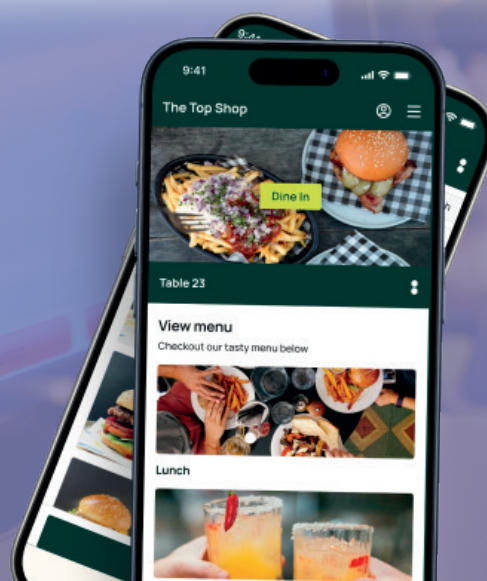

Increase Average Spend

Increase your customers' average spend by 30% through powerful features and promotions.

“From the start, Tevalis and me&u felt like a really good fit. It had all the features we needed in terms of accessibility, ease of use, being able to run promotions and feature products, even down to the aesthetics of the actual QR codes themselves.”
