Get a share of the revenue generated by Dynamic Currency Conversion (DCC)

With DCC from Planet you can offer your international guests the choice of paying in their home currency. By offering this extra service you'll improve guest satisfaction and loyalty and also generate incremental revenue. You'll get ~1% rebate on the transaction value processed via Planet's DCC solution.

Reduced Manual Input

With intuitive payment devices, less manual input is required from front-of-house staff, meaning less errors and increased revenue.

Turn Tables Faster

Our integration makes it super easy for guests and staff alike to pay the bill, and close the table on the EPOS, allowing the next covers to take the

Reliable Gateway

Planet's highly reliable gateway offers a 99.999% uptime, ensuring merchants never miss a sale.

planet

“Planet are thrilled to be joining forces with Tevalis to deliver against our mutual goal of delighting guests through technology. Our pay-at-counter and pay-at-table integrations, coupled with Tevalis's market-leading POS allow customers around the world to streamline their operations, leaving more time to focus on what they do best - hospitality. With Planet's dynamic currency conversion, international guests have the choice to pay in their own currency. This will provide an improved guest experience, and also unlock new revenue streams for your business.”
